

## SCHOOL/WORSHIP CENTER SAFETY ASSESSMENT

A group of students with backpacks walking away from the camera, viewed from behind, in a school hallway or courtyard.

Is your organization ready to successfully respond to the variety of security challenges facing us today? Are your physical security measures prepared for a **violent intruder, bomb threat, bullying, child abuse, evacuation, parent-student reunification, earthquake**, and more?

### Are you **ready**? **How** do you know? **Where** do you **start**?

**TOTAL SAFETY SOLUTIONS'** safety assessment team is comprised of professional law enforcement professionals dedicated to keeping children and adults safe in their schools and places of worship.

Comprehensive threat and vulnerability assessments are essential to securing your site. Our multidisciplinary approach looks at security from every angle to mitigate risks — from the physical environment to the human element to the role of technology.

Effective security starts with a clear understanding of your vulnerabilities. We can help you gauge your strengths and weaknesses in a wide variety of scenarios. Not only do we bring decades of experience to our assessments, our leading experts can also help you anticipate potential sources of new threats.

#### **POLICIES, PRACTICES, AND PROCEDURES**

We will review all of your organization's policy manuals and make recommendations to mitigate any areas of vulnerability to reduce your risk.

#### **PHYSICAL SECURITY MEASURES**

Our team will focus on your site's individual needs and make recommendations that can enhance existing safety features and provide you with options that are based on our onsite findings. We will also highlight the many features and strategies that are already in place that are keeping faculty and staff safe.

#### **EMERGENCY RESPONSE AND MANAGEMENT**

Our team will look at current areas of exposure and any past security incidents in order to identify potential vulnerabilities. These assessments are one of the most effective ways to identify significant gaps in crisis planning before an incident reveals them with chronic plan failure.
