COMMUNITY CLASSES

Parenting in the Digital World Seminar

2 hours

Based on Clay Cranford's acclaimed book, Parenting in the Digital World, this 2-hour cyber safety seminar will prepare parents to effectively supervise their children on social media sites, protect them from online threats, and bring technological balance back to their homes.

Cyber Safety Assembly for Students

40 minutes

This engaging presentation for students 5th to 12th grade can be taught in a classroom or in a gymnasium to hundreds of students. The program focuses on making good choices online, the importance of a positive Digital Reputation, and the long-term impact of cyberbullying can have on their lives.

Parenting in the Digital VAPING World Seminar

1.5 hours

Vaping and marijuana are big business and children are the target. Drug culture is perpetuated by social media as well as easy online access. This class exposes the truth about this fast growing trend and what parents can do to help their children stay vape and drug free. Suitable for students and parents to attend together.

Understanding & Preventing School Violence

90 minutes

This seminar will answer the questions parents have about making their school safe from violence. Parents will learn how to identify the warning signs a person is on a path to violence, and what parents, schools, and law enforcement can do to prevent violence from occurring in our schools.

WHAT ATTENDEES ARE SAYING

“

Every parent should be required to attend his presentation! I learned so much in the 2 hours there and walked away feeling more informed and confident in having a solid game plan to protect my kids.

PROFESSIONAL STAFF TRAINING

Social Media Investigations: Threats and Solutions

1 day

This class provides an in-depth look at how teens use social networking platforms. This course will also explore the unique threats that exist online: cyberbullying, impersonation, identity theft, sexting, sexual predators, human trafficking, pornography, and other high-risk behaviors. Online open source intelligence resources will be covered.

Behavioral Threat Assessment & Management

1 day

Attendees will learn a threat assessment-intervention model that can be used by educators, law enforcement officers, mental health professionals, and others involved in workplace safety. It outlines a procedure for evaluating threats and a person of concern with a plan to manage the subject.

Active Shooter Prevention and Response

2 to 4 hours

This class will train your staff members how to identify the warning signs an individual is on a path to violence, stopping the violent act before it begins. This training includes methods for staff members to remain vigilant and prepared for an active threat, intervention strategies, and how to react to an active shooter event.
