

Digital Citizenship For Families Made Easy

We have developed an easy-to-implement program to equip parents with the tools and resources to teach digital safety and online responsibility to their children.

About Our Program

The curriculum's 13 lessons are comprised of 5 key digital citizenship domains: *Digital Footprint and Reputation Management*; *Cyberbullying Prevention*; *Online Security*; *Privacy and Safe Online Relationships*; and *Screen Time Balance*.

Why Choose Us?

Our program was created by a nationally recognized expert in online safety for children, Clayton Cranford, The Cyber Safety Cop™. It is easy to implement, turn-key, and 100% online. It brings caregivers and children together.

DIGITAL CITIZENSHIP MADE EASY TO FACILITATE

The parent or caregiver does not need to be an expert in Digital Citizenship education. They will be provided with a step-by-step guide to facilitate each lesson and a follow-up discussion.

PERFECT FOR REAL FAMILIES WITH REAL LIVES

Each lesson only takes 20 to 25 minutes to complete. The course is 100% online and can be viewed on laptops or mobile devices. Perfect for homeschooling and affordable.

ENGAGING AND IMPACTFUL MATERIAL

Engaging short and informative videos with impactful discussions. High-quality material created by online safety expert who worked in schools and law enforcement for 20 years.
