

Digital Citizenship Education Made Easy

We have developed two easy-to-implement programs aimed at equipping educators and parents with the tools and resources to teach digital citizenship to Kinder - 3rd and 4th-8th graders.

About Our Program

The curriculum's 13 lessons are comprised of 5 key digital citizenship domains: *Digital Footprint and Reputation Management*; *Cyberbullying Prevention*; *Online Security*; *Privacy and Safe Online Relationships*; and *Screen Time Balance*.

Why Choose Us?

Our program was created by a nationally recognized expert in online safety for children, Clayton Cranford, The Cyber Safety Cop™. It is easy to implement, turn-key, and 100% online. It can be taught in a classroom or remotely.

DIGITAL CITIZENSHIP MADE EASY TO FACILITATE

The facilitator does not need to be an expert in Digital Citizenship education. They will be provided with a step-by-step guide to facilitate each lesson and a follow-up discussion.

PERFECT FOR A CLASSROOM OR LIVING ROOM LEARNING

Each lesson fits nicely into a class period, with only 20 to 25 minutes to complete. The course is 100% online and can be taught in a classroom or remotely. Perfect for homeschooling.

ENGAGING AND IMPACTFUL MATERIAL

Engaging short and informative videos and group discussions. High-quality material created by online safety expert who worked in schools and law enforcement for 20 years.
