

Seminar for Parents

As parents, our concern for the safety and well-being of our children is paramount. In response to the alarming rise in teen vaping, marijuana use, and fentanyl-related deaths, we present a thought provoking 90-minute session designed specifically for parents.

This presentation will equip parents with the essential knowledge to protect their children and engage in meaningful conversations about substance use and addiction.

What Parents Will Learn

Vaping: Unveiling the Risks

Explore the hidden dangers of teen vaping and how it impacts our children's health. Learn about the concerning rise in vaping among students and understand the potential consequences of nicotine addiction.

Marijuana Myths: Understanding the Reality

Explore the hidden dangers of teen vaping and how it impacts our children's health. Learn about the concerning rise in vaping among students and understand the potential consequences of nicotine addiction.

Fentanyl Crisis: A Looming Threat

Address the pressing issue of fentanyl overdose deaths and counterfeit prescription drug use. Gain insights into how teens unknowingly expose themselves to the deadly effects of counterfeit pills laced with Fentanyl.

Spotting Online Risks

Understand how teens are acquiring drugs online and how to identify suspicious online activity on their child's phones. Equip parents with the tools to monitor and safeguard their children's online interactions.

The Power of Conversation

Learn practical strategies for having thoughtful conversations about drug use and addiction with your child. We will provide parents with practical guidance on fostering open communication and support.

Why This Seminar Matters

Saving Lives Through Awareness

Drug overdose is the leading cause of death for young people, and Fentanyl has become the number one cause of drug overdoses. This seminar addresses these pressing issues head-on, seeking to prevent further tragedies.

Empowering Parents to Be Informed Advocates

By arming parents with accurate information, we empower them to recognize signs of substance use and addiction, allowing them to take timely and supportive action.

Creating Safer Communities

The spike in vaping and marijuana use by students has caught the attention of school administrators and police officers. This seminar enables parents to be proactive partners in creating safer school environments.

Strengthening Parent-Child Bonds

Through thoughtful conversations about drug use, parents can foster trust and open dialogue with their children, building a stronger and more supportive relationship.

Flexible Presentation Options

1. In-Person Presentations: Our dynamic presenters visit your school to deliver an engaging and interactive presentation.

2. Live Webinars: We can connect with your students remotely, allowing for a more flexible schedule

3. View-on-Demand Videos: Our professionally produced videos provide the same valuable content as our in-person presentations and live webinars.
